SAMICK

The selection of a new piano is a wonderful addition to your home or studio and the selection of a Samick piano is a wise choice. Their beautiful tone, the correct touch and the timeless beauty of cabinetry has made Samick the piano of choice.

Samick is the first piano maker to achieve ISO 9002 certification. The quality of workmanship is evident when you look closely at the fit and finish of a Samick piano.

The world-renowned German scale designer, Klaus Fenner has created these pianos with a warm European voice. By combining the finest materials and craftsmanship with his award winning scale designs, he has created a piano that will make beautiful music for generations to come. K. Gunner Benson's skill and experience in piano design is evident in the refined lines and curves that make these the most beautiful case styles available today. The finest veneers and case construction assures you that your Samick piano will hold its beauty and value for many years.

The Samick grand pianos come in four sizes and offer the pianist a great sounding and playing piano at a tremendous value. The Samick vertical piano line offers the family with limited space a virtual upright grand piano. The size of the soundboard and the length of the bass strings rival many of the smaller size grands. Whether you choose a vertical or grand piano with Samick, you get the same great attention to detail and quality of materials. With proper care these instruments will last for many generations.

JS-121M

48" Professional upright available in mahogany or ebony high gloss.

Weight: 487 lbs. | Depth: 24" | Width: 59"
Soundboard Area: 2093.2 sq. in.
#1 Bass string: 48 4/5"

JS-131, 52" PROFESSIONAL UPRIGHT ALSO AVAILABLE

The 121 is built for the professional player or the aspiring professional. This 48" tall piano offers maximum string length and soundboard area for outstanding tone. But a professional also needs responsive touch, which is provided by one of the largest actions in the industry. Compare the size of the Samick, all-wood action to the competition and you'll be amazed. The large parts afford the pianist a full color pallet from pianissimo to triple forte and then some.

JS-143F

43" French provincial console available in cherry satin.

Weight: 437 lbs. | Depth: 22" | Width: 57 7/8"
Soundboard Area: 1862 sq. in.
#1 Bass string: 45 5/8"

Looking for a great value in an American decorator cabinet? The JS-143 series by Samick is the console for you. Choose from the soft curves of the French provincial pictured in cherry satin or perhaps you prefer the stately look of the traditional in rich mahogany. All three feature hand rubbed polyester cabinets, which enhance the natural grain of the wood. Both feature Boston fallboards and pedal kick plates. The JS-143 series is an outstanding value.

JS-143T

43" Traditional console available in mahogany satin.

Weight: 437 lbs. | Depth: 22" | Width: 57 7/8"
Soundboard Area: 1862 sq. in.
#1 Bass string: 45 5/8"

JS-043

43" Continental console available in high polish or satin finishes. Ebony, ivory, cherry and walnut are available.

Weight: 445 lbs. | Depth: 21 7/8" | Width: 58"
Soundboard Area: 1862 sq. in.
#1 Bass string: 45 1/2"

The JS-043 is the perfect instrument for the beginning pianist. A full 43" console piano with longer strings and concert length keys provides the beginner with exceptional dynamic contrast and proper touch, and best of all...it's affordable! The continental styling is at home in any decor and with so many colors and wood finishes to choose from, you're sure to find the perfect one for your home.

JS-115

45" Studio piano available in high polish or satin finishes. Ebony, ivory, cherry and walnut are available.

Weight: 456 lbs. | Depth: 21 3/4" | Width: 58 1/4"
Soundboard Area: 1905.5 sq. in.
#1 Bass string: 45 3/5"

There are two Samick school pianos: the JS-115 above pictured in ebony satin and the JS-247 below. If you're working with a limited budget, consider the JS-115, which features Samick's surface tension soundboard, guaranteed for a lifetime against cracking or splitting. If you're looking for the best performance piano, you must play the JS-247 which contains the best lineup of features in the piano industry. A few of these features include all wood case construction, solid premium spruce soundboard, slow close fallboard, and agraffes throughout the bass section.

JS-247

46 1/2" School studio available in high polish ebony as well as walnut, oak or ebony on oak satin finishes.

Weight: 489 lbs. | Depth: 24" | Width: 58 1/2"
Soundboard Area: 2074.8 sq. in.
#1 Bass string: 48 4/5"
