Celebrating Our 29th Anniversary!

Beyer Music, established in September of 1981, has as its goal to serve the musical education and musical product needs of the population of the northwestern Connecticut area. We do this through offering piano, organ, keyboard, and theory lessons. We also provide a bulletin board announcing current musical programs and post articles of musical interest.

Our musical services and products include the sale of new and used acoustic and digital pianos, keyboards, rental of pianos, sale of new and used organs, organ rentals, piano tuning, and organ repair.

Beyer Music stocks a large variety of sheet music and books, including method books. We also have a large selection of music accessories. We can special order for your specific needs and mail your order directly to you. We can now obtain same day service for many musical selections through our association with the Sheet Music Direct program from Hal Leonard.
